Name: Phil Ratte

Email: XXXXXX@gmail.com

Comments: Hello Ray!

I recently contacted you. I am a Mechanical Engineer (BME U of MN 1961). I practiced for 27 years as a Professional Engineer in the MN and WI.

I also own a Kangen SD 501 water ionizer. I am a distributor for Enagic. Here is an excerpt from an email sent to a close personal friend about water ionizing machines:

"Your dad shared the "Truthful Ionizer Review" with me several days ago. I found much of what is in that report when I did my "due diligence" on Ionized Water Machines in the last two weeks of November. I ordered my Kangen SD 501 on November 30 with a \$605 downpayment. I made my first \$225 payment on the loan on Jan. 15th. So I have put my money where my mouth is.

Many of the claims and arguments against the Kangen units and for the various other units are inaccurate and/or false. If I someone I have shared the Kangen information with buys one of the other machines - Tyent, Life, KYK, Jupiter, etc. because of their reliance on false statements, I will ask the Attorney General of Minnesota and the Attorney General of the United States to sue whoever lied about the other machine for criminal felony fraud. I can and will testify as an expert witness for the prosecution."

I am composing a sworn affidavit of my professional opinion that will be signed and dated in the presence of a Notary Public. I am asking your permission to include a link to your "Truthful Ionizer Review" in my affidavit. If you wish, I will send you an original affidavit for your files.

Sometime in February, I will be announcing my candidacy for Governor of Minnesota. I will be providing FREE Miracle Healing Water in each of the 67 Counties in Minnesota and some of the major suburbs of the major cities.

I will also provide at, my cost, Miracle II Bath Soap which is 1/3 Miracle II Soap and 2/3 Miracle II Neutralizer. Carol Lechko used the Miracle II products and fossilized Coral Calcium to rid herself of the Multiple Sclerosis which she had been treated for 3 years. She has now helped over 10,000 people heal themselves of 133 different disease conditions.

I am in the process of testing a gas made from plain water using electricity and magnetism that doubles the energy output of ethanol. Minnesota has a \$6 billion ethanol industry, so that will be of great importance in my Miracle Campaign for Governor.
